

A world map showing the density of OpenStreetMap (OSM) data. The map uses a color scale where green indicates high data density, yellow indicates medium density, and red/orange indicates low density. High-density areas (green) are concentrated in North America, Europe, and East Asia. Low-density areas (red/orange) include large parts of Africa, South America, and Australia. The text "OSM Data Editing" is centered over the map.

Go to [openstreetmap.org](https://openstreetmap.org) and log in using your account details

The screenshot shows the OpenStreetMap website's login interface. At the top, the OpenStreetMap logo is on the left, and navigation links for 'Edit', 'History', and 'Export' are in the center. On the right, there are links for 'GPS Traces', 'User Diaries', 'Copyright', 'Help', and 'About'. The 'Log In' and 'Sign Up' buttons are highlighted with a red rectangle. Below the header, the word 'Login' is centered in a large font. Underneath, there is a link for 'Don't have an account? Register now'. The login form consists of two input fields: 'E-mail Address or Username:' and 'Password:'. Below the password field is a link for 'Lost your password?'. There is a checkbox for 'Remember me' and a blue 'Login' button. At the bottom, there is a section for 'Alternatively, use a third party to login:' with icons for Google, Facebook, Microsoft, GitHub, WordPress, and AOL.
